

## National Child and Adolescent Surveys (12-1-11)

| Survey Name and Sponsor  | Focus area  | Keywords and Survey Population   |
|--|---|--|
| <p><b><i>America's Children: Key National Indicators of Well-Being</i></b></p> <p>Sponsored by Child Stats: Forum on Child and Family Statistics</p> | <p>A compilation of data from 23 national <b>datasets</b> to identify children's well-being across 7 domains: Family and Social Environment, Economic Circumstances, Health Care, Physical Environment and Safety, Behavior, Education, and Physical and Mental Health. Reports are published yearly and available since 1997.</p> <p><a href="http://www.childstats.gov/americaschildren/index2.asp">http://www.childstats.gov/americaschildren/index2.asp</a></p>         | <p>-Education<br/>-Home &amp; Family<br/>-Mental Health<br/>-Physical Health<br/>-Safety</p> <p>Children ages 0-17</p>                                   |
| <p><b><i>Annie Casey Foundation's KidsCount's Data Book</i></b></p> <p>Sponsored by Casey Foundation</p>   | <p>National and state-by-state project to track the status of US children. Data measures the educational, social, economic, and physical well-being of children across 10 indicators: birth weight; infant, child, and teen mortality; teen pregnancy; school attendance; parent education; family poverty; and single-parent families. Reports are published yearly since 2000.</p> <p><a href="http://datacenter.kidscount.org/">http://datacenter.kidscount.org/</a></p> | <p>-Education<br/>-Home &amp; Family<br/>-Physical Health</p> <p>Children ages 0-19</p>  |
| <p><b><i>Behavioral Risk Factor Surveillance System (BRFSS)</i></b></p> <p>Sponsored by Centers for Disease Control and Prevention</p>               | <p>State-based system of health surveys that collects information from adults 18+ on health risk behaviors, preventive health practices, and health care access primarily related to chronic disease and injury. BRFSS is conducted monthly with more than 350,000 adults are interviewed each year. Reports and data available since 1984.</p> <p><a href="http://www.cdc.gov/brfss/index.htm">http://www.cdc.gov/brfss/index.htm</a></p>                                  | <p>-Drugs &amp; Alcohol<br/>-Physical Health</p> <p>Individuals ages 18+</p>   |
| <p><b><i>California Health Kids Survey (CHKS)</i></b></p> <p>Sponsored by WestEd and California Department of Education</p>                          | <p>State-wide survey of students in grades 5, 7, 9, and 11. Items include alcohol and drugs use, safety and violence, physical health, protective factors (home, school, peer and community), and personal resilience factors. Local and California state-wide reports are available since 2002.</p> <p><a href="http://chks.wested.org/">http://chks.wested.org/</a></p>   | <p>-Drugs &amp; Alcohol<br/>-Education<br/>-Home &amp; Family<br/>-Mental Health<br/>-Physical Health<br/>-Safety</p> <p>Students grades 5, 7, 9, 11</p> |
| <p><b><i>Child Health USA</i></b></p> <p>Sponsored by U.S. Department of Health and Human Services</p>   | <p>Annual statistical report highlighting the physical (e.g., low birth weight, STDs, hospitalizations) and mental health (e.g., suicide, social skills, bullying), as well as health service utilization of youth ages 0-18 and their families. Data is aimed at child health practitioners to assist them in planning, developing, and implementing effective programs to meet public health challenges related specifically to children.</p>                             | <p>Drugs &amp; Alcohol, Home &amp; Family, Mental Health, Physical Health, Safety;<br/>Children ages 0-18</p>  |

## National Child and Adolescent Surveys (12-1-11)

|   |  |  |
|---|--|--|
|   | <p>State and city reports are available online from 1999.</p> <p><a href="http://mchb.hrsa.gov/chusa11/">http://mchb.hrsa.gov/chusa11/</a></p>   |  |
| <p><b><i>Comprehensive Community Mental Health Services for Children and Families</i></b></p> <p>Sponsored by SAMHSA</p>                                | <p>Presents national evaluation findings from a federally-funded program that promotes systems of care for 45 community-based mental health services for children, youth and their families. Reports on data that track characteristics, service use, and outcomes over 6 year project period. Yearly reports are available from 1997-2005.</p> <p><a href="http://store.samhsa.gov/product/The-Comprehensive-Community-Mental-Health-Services-for-Children-and-Their-Families-Program-Evaluation-Findings/SMA10-4536">http://store.samhsa.gov/product/The-Comprehensive-Community-Mental-Health-Services-for-Children-and-Their-Families-Program-Evaluation-Findings/SMA10-4536</a></p> | <p>-Education<br/>-Home &amp; Family<br/>-Mental Health<br/>-Physical Health</p> <p>Children birth to grade 12</p> |
| <p><b><i>Data for Action</i></b></p> <p>Sponsored by Data Quality Campaign</p>  | <p>Annual report of US states' ability to collect and use quality data to improve student achievement. Data focus on the 10 Essential Elements of Statewide Longitudinal Data Systems: student-level data (e.g., enrollment, program participation, test records), graduation and dropout rates, and teacher-level data identifiers. Data is available on the 10 State Actions To Ensure Effective Data Use (e.g., creation of longitudinal data systems, progress reports, data sharing). Reports available since 2005.</p> <p><a href="http://dataqualitycampaign.org/stateanalysis/about/">http://dataqualitycampaign.org/stateanalysis/about/</a></p>                                | <p>Education, Grades K-12</p>  |
| <p><b><i>Early Childhood Longitudinal Study (ECLS)</i></b></p> <p>Sponsored by U.S. Department of Education and the Institute of Education Sciences</p> | <p>Combination of 3 longitudinal studies examining early education programs, family relationships, school performance and a wide range of family, school, community, and individual variables. Three 3 cohorts: (1) sample of children born in 2001 and followed from birth through kindergarten entry, (2) sample of children followed from kindergarten 1998-99 through 8<sup>th</sup> grade, and (3) sample of children from kindergarten (2010-11) through 5<sup>th</sup> grade. Data and reports available since 1998.</p> <p><a href="http://nces.ed.gov/ecls/">http://nces.ed.gov/ecls/</a></p>   | <p>-Education<br/>-Home &amp; Family<br/>-Mental Health<br/>-Physical Health</p> <p>Children birth to grade 8</p>  |
| <p><b><i>High School Longitudinal Study (HSLs)</i></b></p> <p>Sponsored by U.S. Department of Education and the Institute of Education Sciences</p>     | <p>Nationally representative, longitudinal study of more than 21,000 9th graders in 944 schools who will be followed through their secondary and postsecondary years. The study focuses on understanding students' trajectories from the beginning of high school into postsecondary education, the workforce, and beyond. Students' parents and math and science teachers are invited to complete surveys, as are the school administrator and lead school counselor in each selected school.</p> <p><a href="http://nces.ed.gov/surveys/hsls09/">http://nces.ed.gov/surveys/hsls09/</a></p>  | <p>-Education<br/>-Home &amp; Family<br/>-Mental Health<br/>-Physical Health</p> <p>Children is grade 9</p>        |

## National Child and Adolescent Surveys (12-1-11)

|   |  |   |
|---|--|---|
| <p><b><i>Indicators of School Crime and Safety</i></b></p> <p>Sponsored by National Center for Education Statistics (NCES) and the Bureau of Justice Statistics (BJS)</p>   | <p>Annual report on crime occurring in school and on the way to and from school; nature of crime in schools and school environments; and responses to violence and crime at school. Data are drawn from the National Crime Victimization Survey, Youth Risk Behavior Survey, School Survey on Crime and Safety, and the Schools and Staffing Survey. Yearly reports are available since 1998.</p> <p><a href="http://bjs.ojp.usdoj.gov/index.cfm?ty=pbdetail&amp;iid=2231">http://bjs.ojp.usdoj.gov/index.cfm?ty=pbdetail&amp;iid=2231</a></p> | <p>-Education<br/>-Safety</p> <p>Children ages 12-18</p>  |
| <p><b><i>Mental Health United States</i></b></p> <p>Sponsored by Substance Abuse and Mental Health Services Administration (SAMHSA)</p>                                     | <p>Biennial survey on the mental health status of the U.S. population; the providers and settings for mental health services; the types of mental health services and rates of utilization; and costs and sources of funding for mental health services. Biennial reports available since 2002.</p> <p><a href="http://store.samhsa.gov/product/Mental-Health-United-States-2008/SMA10-4590">http://store.samhsa.gov/product/Mental-Health-United-States-2008/SMA10-4590</a></p>   | <p>-Mental Health<br/>-Physical Health</p> <p>Children (ages 4-18) and Adults</p>   |
| <p><b><i>Monitoring the Future</i></b></p> <p>Sponsored by National Institute on Drug Abuse</p>   | <p>Annual survey of 8<sup>th</sup>, 10<sup>th</sup>, and 12<sup>th</sup> grade students on alcohol and drug use (e.g., inhalants, amphetamines, cigarettes). In 2010 over 46,500 students were report current 30-day, annual, and lifetime use, as well as perceived harmfulness and availability of drugs. Yearly reports are available since 1975.</p> <p><a href="http://monitoringthefuture.org/">http://monitoringthefuture.org/</a></p>  | <p>-Drugs &amp; Alcohol</p> <p>Children grades 8, 10, and 12.</p>   |
| <p><b><i>National College Health Assessment</i></b></p> <p>Sponsored by American College Health Association (ACHA)</p>  | <p>National survey is used to assist college health service providers, health educators, counselors, and administrators to collect data about their students' habits, behaviors, and perceptions on the most prevalent health topics: alcohol, tobacco, and other drug use, mental health, and injury prevention, personal safety, and violence. Biannual reports available since 2008.</p> <p><a href="http://www.acha-ncha.org/reports_ACHA-NCHAI.html">http://www.acha-ncha.org/reports_ACHA-NCHAI.html</a></p>                             | <p>-Drugs &amp; Alcohol<br/>-Education<br/>-Mental Health<br/>-Physical Health<br/>-Safety</p> <p>College Students ages 18+</p> |
| <p><b><i>National Comorbidity Survey (Adolescent Supplement) NCS-A</i></b></p> <p>Sponsored by US Dept. of Health and Human Services, and National Institutes of Health</p> | <p>Nationally representative sample of 10,000 adolescents 13-17 years old examining DSM-IV lifetime and current prevalence, age-of-onset, course, and comorbidity. Risk and protective family, community, and school factors, and correlates of mental health disorders are included.</p> <p><a href="http://www.hcp.med.harvard.edu/ncs/">http://www.hcp.med.harvard.edu/ncs/</a></p>   | <p>-Home &amp; Family<br/>-Mental Health<br/>-Physical Health</p> <p>Children ages 13-17</p>                                    |
| <p><b><i>National Education Longitudinal Study</i></b></p> <p>Sponsored by U.S. Department of</p>   | <p>Nationally representative sample of 8th-graders surveyed in 1988, 1990, 1992, 1994, and 2000. On data includes student reports on school, work, and home experiences; educational resources and support; the role in education of their parents and peers; neighborhood characteristics; educational and occupational aspirations; and other</p>  | <p>-Drugs &amp; Alcohol<br/>-Education<br/>-Home &amp; Family<br/>-Mental Health</p>  |

| Education and the Institute of Education Sciences   | student perceptions; alcohol and drug use; and extracurricular activities. Reports and data available since 1988.<br><br><a href="http://nces.ed.gov/surveys/nels88/">http://nces.ed.gov/surveys/nels88/</a>   | Cohort of children in grade 8  |
| <b>National Health Interview Survey (NHIS)</b><br><br>Sponsored by National Center for Health Statistics and Centers for Disease Control (CDC)                      | Annual collection of data on a broad range of health topics (e.g., asthma, allergies, learning disabilities, prescription medication use, school days missed due to illness or injury, health care access) are collected through personal household interviews. Data and yearly reports available since 1963.<br><br><a href="http://www.cdc.gov/nchs/nhis.htm">http://www.cdc.gov/nchs/nhis.htm</a>   | -Education<br>-Mental Health<br>-Physical Health<br><br>Children ages 0-17                   |
| <b>National School-Based Health Care Census</b><br><br>Sponsored by National Assembly on School-Based Health Care (NASBHC)  | Data from 1,226 school-based health centers addressing demographics of school and students, and the types of prevention, education, mental health services provided. Data are collected every 3 years. Brief reports available since 1998.<br><br><a href="http://www.nasbhc.org/site/c.ckLQKbOVLkK6E/b.7742439/k.E8FF/SBHC_Data.htm">http://www.nasbhc.org/site/c.ckLQKbOVLkK6E/b.7742439/k.E8FF/SBHC_Data.htm</a>  | -Education<br>-Mental Health<br>-Physical Health<br><br>Students Kindergarten to High School |
| <b>National Survey of Child and Adolescent Well-Being (NSCAW)</b><br><br>Sponsored by US Dept of Health and Human Services, Administration of Children and Families | National cohort study of children who are at risk of abuse or neglect or are in the child welfare system. Specifically examines child and family well-being outcomes as they relate to family characteristics, community environment, and other factors. Data includes 2 cohorts of children (baseline 2001 and 2008) with follow-up data collected at 12 months, 18 months, and 36 months, and 60 to 72 months. Data and reports available since 2001.<br><br><a href="http://www.acf.hhs.gov/programs/opre/abuse_neglect/nscaw/">http://www.acf.hhs.gov/programs/opre/abuse_neglect/nscaw/</a> | -Education<br>-Home & Family<br>-Mental Health<br>-Physical Health<br><br>Children ages 0-18 |
| <b>National Survey of Children with Special Health Care Needs (NS-CSHCN)</b><br><br>Sponsored by Data Resource Center for Child and Adolescent Health (DRC)         | National and statewide data from non-institutionalized children (ages 0-17) classified as having one+ special health care needs. Information on their physical, emotional and behavioral health, access to quality health care, care coordination of services, access to a medical home, transition services for youth, and the impact of chronic condition(s) on the child's family.<br><br><a href="http://cshcndata.org/Content/Default.aspx">http://cshcndata.org/Content/Default.aspx</a>   | -Mental Health<br>-Physical Health<br><br>Children ages 0-17                                 |
| <b>National Survey of Children's Health</b><br><br>Sponsored by Data Resource Center for Child and Adolescent Health (DRC)  | National and state-wide data on children's (ages 0-17) physical and mental health status, access to quality health care, child's family, neighborhood and social context. Most recent data available comes from 2007 (sample size 91,642).<br><br><a href="http://nschdata.org/Content/Default.aspx">http://nschdata.org/Content/Default.aspx</a>  | -Mental Health<br>-Physical Health<br><br>Children ages 0-17                                 |

## National Child and Adolescent Surveys (12-1-11)

|   |   |   |
|---|---|---|
| <p><b><i>National Survey of Early Childhood Health</i></b></p> <p>Sponsored by American Academy of Pediatrics</p>   | <p>Provides national baseline data on pediatric care (and its impact) from the parent’s perspective. Parents of over 2,000 children under 3 years of age were surveyed on the delivery of pediatric care to families. Data and reports available from February-July 2000 survey.</p> <p><a href="http://www.cdc.gov/nchs/slait/nsech.htm">http://www.cdc.gov/nchs/slait/nsech.htm</a></p>   | <p>-Home &amp; Family<br/>-Physical Health</p> <p>Children ages 0-3</p>   |
| <p><b><i>National Survey on Drug Use and Health</i></b></p> <p>Sponsored by Substance Abuse and Mental Health Services Administration (SAMHSA) and U.S. Dept. of Health and Human Services (DHHS)</p> | <p>National and state-level data on the use of tobacco, alcohol, illicit drugs (including non-medical use of prescription drugs) and mental health in the United States. Most recent report from 2010 with national representative sample of 68,487 completed interviews were obtained from individuals 12 years and older across the country. Data and reports since 2003.</p> <p><a href="http://www.oas.samhsa.gov/nsduh.htm">http://www.oas.samhsa.gov/nsduh.htm</a></p>  | <p>-Drugs &amp; Alcohol<br/>-Mental Health</p> <p>Individuals 12 and older</p>  |
| <p><b><i>Parent and Family Involvement in Education Survey (PFI)</i></b></p> <p>Sponsored by National Center for Education Statistics (NCES)</p>  | <p>Information collected in combination with the National Household Education Survey (NHE), interviews roughly 12,500 parents about students in K-12<sup>th</sup> grade and focuses on parental and family involvement in their education. Questions were asked about parent and family involvement in the students' schools, and about educational activities students engaged in with their parents and families outside of school. Data and reports available since 1991.</p> <p><a href="http://nces.ed.gov/nhes/index.asp">http://nces.ed.gov/nhes/index.asp</a></p> | <p>-Education<br/>-Home &amp; Family</p> <p>Parents of K-12 grade students</p>  |
| <p><b><i>Rankings of the State’s Estimates of School Statistics</i></b></p> <p>Sponsored by National Education Association (NEA)</p>  | <p>National dataset that provide facts about the extent to which local, state, and national governments commit resources to public education. Data include information on state populations, school enrollment, teacher demographics, student-teacher ratio, teacher salaries, state and government finances. Reports available since 2004.</p> <p><a href="http://www.nea.org/home/46614.htm">http://www.nea.org/home/46614.htm</a></p>  | <p>-Education</p> <p>Data from grades K-12</p>  |
| <p><b><i>School Health Policies and Programs Study (SHPPS)</i></b></p> <p>Sponsored by Centers for Disease Control and Prevention (CDC) and Dept. of Health and Human Services</p>                    | <p>National survey periodically conducted to assess school health policies and practices at the state, district, school, and classroom levels. SHPPS was most recently conducted in 2006. Data and reports available since 1994.</p> <p><a href="http://www.cdc.gov/HealthyYouth/shpps/index.htm">http://www.cdc.gov/HealthyYouth/shpps/index.htm</a></p>   | <p>-Drugs &amp; Alcohol<br/>-Education<br/>-Mental Health<br/>-Physical Health<br/>-Safety</p> <p>Data from grades K-12</p> |
| <p><b><i>Youth Risk Behavior Surveillance System (YRBSS)</i></b></p>  | <p>National survey of students in grades 9-12 in 2009 school year. Tracks health-risk behaviors among youth, such as perceptions of safety, aggressive attitudes and</p>  | <p>-Drugs &amp; Alcohol<br/>-Mental Health</p>  |
