

WI Department of Public Instruction TRAUMA SENSITIVE SCHOOLS

127

Districts/Schools

The number of schools and districts that have participated in DPI's multi-year change process to support the growth of Trauma Sensitive school policies, procedures, and practices.

Outcomes

DPI's TSS initiative has shown to increase staff awareness of trauma and integration of TSS into school improvement plans. Data also shows staff are shifting to a stronger resilience-oriented perspective for their students and themselves.

Resources

The TSS Professional Learning System is a free online series of training modules for all 3 Tiers. Each module consists of narrated content, supplemental resources, and an implementation tool.

Connection to Other Work

TSS is a universal component of a Comprehensive School Mental Health system. Fundamental to TSS is Social Emotional Learning (SEL) and Compassion Resilience.

Partnerships

DPI partners with Sara Daniel, from SaintA and Pam Black of Trauma Sensitive Education, LLC to support the development of module content and long-range planning of the TSS initiative.

Connection with SSPW Vision

A TSS develops environments that are safe and supportive, allowing students to be more fully engaged in their educational experience.
